PUBLIC NOTICE

Regarding the National Endowment for the Humanities’ Section 106 Review of Trustees of Indiana University’s Arts and Humanities Center at Indiana University Bloomington

The National Endowment for the Humanities (NEH) has awarded the Trustees of Indiana University a grant to establish an Arts and Humanities Center at Indiana University Bloomington within Maxwell Hall. NEH is an independent grant-making agency of the United States government dedicated to supporting research, education, preservation, and public programs in the humanities. This public notice is issued as part of NEH’s responsibilities under 36 C.F.R. Part 800, the regulations which implement Section 106 of the National Historic Preservation Act (NHPA) of 1966, as amended, 16 U.S.C. § 470. NEH, a funding agency, is required by regulation to identify and assess the effects of any proposed actions on historic properties. If any proposed action will have an adverse effect on historic resources, NEH works with the appropriate parties to seek ways to avoid, minimize, or mitigate any adverse effects. Additionally, the Section 106 regulations require NEH to consider the views of the public on preservation issues when making final decisions that affect historic properties.

In its grant application, the Trustees of Indiana University, proposes to renovate Maxwell Hall, located at 750 West Kirkwood Ave., Bloomington, Indiana 47405. Work is limited to the interior of the building. The full scope of the renovations is in Attachment A.

Maxwell Hall is part of the Old Crescent Historic District on the Indiana University Campus, which is listed on the National Register of Historic Places (Ref# 80000028). The structure is a Richardsonian Romanesque structure designed by Indianapolis architect George W. Bunting. Construction of the original building was completed in 1890, with an addition of a 3-story north wing in 1908. The building showcases the famed Indiana limestone. Indiana craftsmen provided Maxwell with decorative belts of carved work between floors and above the massive lintels of the great south window expanse. Ornately carved eaves and gables are a distinctive feature of the building. The interior of the building retains ornately carved wooden newel posts, staircases, doorways. As a whole, the Old Crescent district of Indiana University's Bloomington campus is significant principally for its association with public education in Indiana, the prominent educators that taught there, and the public figures among its graduates.

On March 3, 2020, the Indiana Deputy State Historic Preservation Officer, Beth K. McCord advised that the proposed undertaking would not diminish the characteristics that qualify Maxwell Hall for inclusion in the National Register of Historic Places, as defined by Section 106 of the National Historic Preservation Act. NEH has determined that the project will have “No Adverse Effect” pursuant to 36 CFR 800.5. The project is designed not affect the characteristics that qualify Maxwell Hall for inclusion in the National Register of Historic Places. Work on the building will adhere to the Secretary of the Interior’s Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings (National Park Service, 1983).

If there are any significant changes in scope or unanticipated effects on the property subsequent to completion of the Section 106 review, the Indiana University Trustees shall stop work on the project and will immediately notify the NEH Federal Preservation Officer, in accordance with 36 CFR § 800.13(b).

As required by Section 106, NEH is providing the public with information about this project, as well as an opportunity to comment on any knowledge of, or concerns with, historic properties in the proposed project area, and issues relating to the project’s potential effects on historic properties. Comments may be submitted to the NEH by e-mail to FPO@neh.gov. The deadline for submitting comments is Monday, April 6, 2020.
LEVEL OF RENOVATION DESCRIPTION

GENERAL

• NO SCOPE OF WORK INTENDED FOR EXTERIOR OF BUILDING.
• NO GROUND DISTURBANCES ARE INCLUDED IN SCOPE OF WORK.
• ALL SCOPE OF WORK WILL BE WITHIN INTERIOR SHELL OF BUILDING.
• SEE FOLLOWING SHEETS FOR OVERALL LEVEL OF WORK FOR EACH FLOOR.
LEVEL OF RENOVATION DESCRIPTION

HEAVY LEVEL
• NONE

MEDIUM LEVEL
• NONE

LIGHT LEVEL
• NEW TREAD/RISER FINISH AT SOUTH STAIR.

EXISTING OVERALL GROUND FLOOR
